Nikolski

Nikolski is an unincorporated CDP located on Nikolski Bay, off the southwest end of Umnak Island - one of the Fox Islands. It is about 115 air miles west of Unalaska. Some believe it to be the oldest continuously-occupied community in the world. Archaeological evidence from Ananiuliak Island, on the north side of Nikolski Bay, dates as far back as 8,500 years. Nikolski is part of the Aleutians West Census Area.

- ♦ The estimated population for 2008 was 27, a loss of about 12 since the 2000 Census.
- ♦ About 68 percent of the resident population 16+ years old worked in 2008.
- ♦ Local Government was the main industry in 2008, employing 53 percent of the area's workers.

Please note: There is an important distinction between the local/regional employment data and our "standard" employment series. Most of these data reflect totals for area residents *only*. Total worker counts may be lower than expected in areas with a large number of nonresident workers. The Alaska Permanent Fund dividend file is used to determine the worker's geographic residence. Only Alaska residents (as defined by PFD application) are included in these totals. Also note that federal employees, the military, and the self-employed are not included in these data.
